Villistas Again Meet Sharp Defeat: GERMANS HOPE Cavalry Makes Short Work of Band

U. S. CAVALRY PUSHING RAPIDLY

Colonel Brown With Famous Trailers Soon Put Outlaws to Flight—Cavalrymen Live Two Weeks on Beef and Corn. But Keep Up Stern Chase—Band of Villistas Meet Carranza Force and Are Practically Annihilated -Persistent Report That Villa Is Wounded and Capture Imminent.

Washington, April 7.—Another engagement between Carranza troops and Villa bandits took place April 4 at Cieneguillas. Ten of the bandits were killed. This information was received at the war department today

San Antonio, Texas, April 7.—Francisco Villa was at Cieneguillas, ten miles south of Satevo, on April 4, according to General Luis Gutierrez, commanding the Carranza troops in Chihuahua. General Bell received this information from Chihuahua and transmitted it to General Funston today. American cavalry are pushing forward along the trails to and beyond Satevo.

Gutierrez reported that Carranza troops engaged fifty Villa men at Cieneguillas, killed ten and captured two. The prisoners said Villa had left there early in the morning with 200 men, leaving the fifty as a rear guard.

San Antonio, Texas, April 7.—Car-ranza troops were reported today by Consul Letcher to be concentrating in the vicinity of Chihuahua. reason for such concentration was un-explained, but officers at General Funston's headquarters assumed that it was part of the de facto government's plan of co-operation in the pursuit of Villa who, according to a majority of reports, is traveling south beyond

The exact positions of the American forces were still unknown at headquarters early today. A report from General Pershing had reached Co-lumbus but its garbled condition made It necessary to repeat it. General Funston and his staff awaited it with some concern, since accurate and official information from the field of operations has been lacking since the early part of the week.

Colonel Brown's brief report, forwarded through the American consulate at Chihuahua, served to strengthen the assumption of those at headquarters that the American advanced forces already had reached Satevo. Colonel Brown reported from Cusihuirachic, some fifty miles from Satevo, April 4.

Advance Guards Near Satevo. El Paso, Texas, April 7.-Advance guards of the American expedition

hunting the brigand Villa are operat ing today near Satevo and that Colonel Dodd's cavalry has again come in contact with the Villistas is ex-

The region between Satevo and Parral where Villa is reported to be head-ing is infested with numerous bands of Villa brigands.

May Give Americans Hard Battle. American refugees from the Benito-Juarez district say that if Villa should succeed in uniting these bands of mauraders he would have an effective force of at least 1,000 men and would be in position to give the advance American troops a hard battle before reinforcements arrived.

The last official information from the front showed that American cavalry had penetrated south of San Antonlo and was still moving southward hard on the trail of the Villistas. It is believed that more frequent reports will now be obtained from Colonel Dodd, inasmuch as it is possible for him to relay his messages by courier to Chihuahua and thence by Mexican telegraph lines to El Paso for re-
